

JUST SIX DEGREES...

"Six degrees of separation" is the theory that *any* person on the planet can be connected to *any other* person on the planet through a chain of acquaintances that has no more than five other people in between them.

MPT seeks to develop and strengthen these "Six degrees of CONNECTIONS".

We believe that people can't support what they don't know about...and the funding to do our work depends on people knowing about it. So we're asking YOU to 'connect' us to six people. Pick six people whom you think care about creating a safer world. A world with less violence, and more compassion. Ask them to look at who we are and what we do: Just send them to the link below! Hopefully, they're moved to support us. But in any case, if THEY then pick six people to let know, the web of human connections grows. The opportunity to fund our work increases. And the dream of making a more just, compassionate, and dignified world will become a reality.

Did you know...

Our Mission: Building a just and sustainable world through active nonviolence.

Our Vision: A just world, grounded in nonviolence and respect for the sacred interconnectedness of all life.

What We Do: We put the tools of violence de-escalation into the hands of ordinary people, creating a safer and more just world.

Behind the Scenes

We do not pursue government funding so that we are able to maintain complete integrity in protecting all people from violence, no matter whom the perpetrator nor whom the target.

We do not charge the communities we serve for peace team placements.

Meta Peace Team is a recognized 501(c)(3) nonprofit organization and our funding comes almost entirely from individual donors.

Understanding that the people most often affected by violence tend to be in lower income brackets, we never turn anyone away for inability to pay for our trainings.
